

# Be in the Know

KEEPING RESIDENTS INFORMED + INVOLVED

## **Stay in the know all event season long with important traffic, parking and information tips.**

The City of Virginia Beach and event organizers have been working hard to minimize effects on residents, neighborhoods and businesses during the 2024 Oceanfront event season, with a focus on safety and security. As with all major events, a lot of planning and preparation happens to ensure everyone has a great time, while making sure the City is fully prepared to address issues such as traffic, crowds and communication.

Before each of the Oceanfront events with anticipated attendance of more than 10,000 per day, “know before you go” information for that event, including road closures, will be added to [virginiabeach.gov/eventinfo](http://virginiabeach.gov/eventinfo), which will serve as the central communications hub for

event-related impacts all year long. Read more about logistics for locals for upcoming 2024 Oceanfront events.

## Driven to Succeed, Trash Collector Moves Upward to Lead Waste Management

In 2003, Jerry "JB" Brown, II, began at the City as an entry-level waste management operator. Progressing in responsibility over the last 21 years, JB was recently promoted to lead the Waste Management Division. He oversees all of Waste Management, which includes Collections, the Landfill, West Neck Recycling Center and the Administration Office.

## City of Virginia Beach Wins Two Workforce Awards for Outstanding Initiatives for Veterans and Interns

“We want students and veterans to know the variety of occupations and opportunities they can pursue as part of our workforce,” said Monica Kopin, the director of Human Resources for Talent Acquisition and Workforce Development. “These members bring energy and experience from their education and military service that help us move forward. We’re honored to have them as part of our organization and will continue to make these hiring initiatives a priority.”
