

Be in the Know

KEEPING RESIDENTS INFORMED + INVOLVED

Housing Matters: Affordable housing is a top priority for the City of Virginia Beach.

Is your housing affordable? What does it mean to be housing-cost burdened? How much would you need to earn to afford the median rent for an apartment in Virginia Beach? Does access to housing that is affordable affect you?

Housing & Neighborhood Preservation is leading an educational and outreach effort called “Housing Matters” to help increase residents’ understanding of affordable housing and how it impacts our community. City Council has made supporting the creation and maintenance of affordable housing one of the City’s top priorities and included several initiatives to address this issue in the Virginia Beach FY24-25 Focused Action Plan.

Test your knowledge on affordable housing by taking a short, five-minute quiz at SpeakUpVB.com through July 7. Your participation may provide you with new insight on this issue and help shape future educational initiatives.
